Mission Statement

The Alzheimer Society of York Region's mission is to alleviate the personal and social consequences of Alzheimer's disease and other dementias and to promote research.

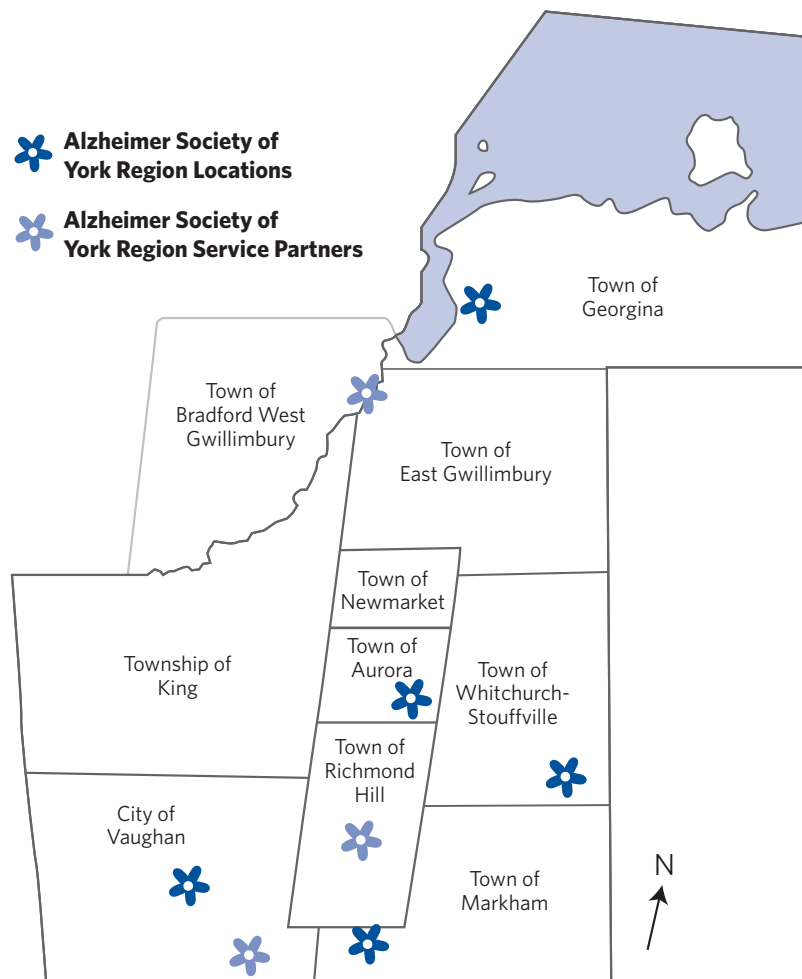

Vision Statement

We are committed to the care of families and the cure of Alzheimer's disease and other dementias. We have achieved excellence, innovation and leadership in **Family Centred Services, Advocacy, Education and Fundraising** through caring professional staff, active volunteers, valued partnerships and a supportive community.

About Alzheimer Society of York Region

The Alzheimer Society of York Region (AS York) is a leader in actively supporting individuals and families coping with Alzheimer's disease and other dementias since 1985. Our history of delivering quality, dementia-specific D.A.Y. program services, an enriched social work program and education opportunities within the Region of York is well respected.

We have a proven record of working collaboratively and in partnership with different agencies within the Region of York to serve the needs of families and individuals living with Alzheimer's disease and other dementias.

Board Chair and CEO Message

Much accomplished. More achievements await...

At the completion of our most recent Strategic Plan in March 2017, the Alzheimer Society of York Region is proud of how far we've come.

More families received caregiver support than ever before. Our D.A.Y. programs increased capacity to service more clients, and we were open six days a week with extended hours, to ease the burden of caregivers. And, we initiated our first-ever communications campaign through social media.

We were chosen by the Central Local Health Integration Network to provide executive leadership to develop a new Framework for Caregiver Support.

Our accomplishments extended beyond our own organization. We provided training sessions to employees working in the developmental sector. Our social workers were utilized by hospitals, community service organizations, and long-term care facilities to help their patients, clients and residents coping with dementia.

We were chosen by the Central Local Health Integration Network to provide executive leadership to develop a new Framework for Caregiver Support. The resulting collaborative group co-created a vision to empower and support caregivers across the health system, providing a Framework that identified several strategies. We met with MPPs and other representatives of the provincial government to advocate for the implementation of a provincial dementia strategy.

None of this would have been achieved without implementing our strategy's three pillars: 1) relocating and expanding our flagship facility; 2) achieving accreditation that strengthened our quality, performance and safety standards; and, 3) embracing a culture of philanthropy to attract resources to increase services, while ensuring donors are valued as members of the broader AS York family.

Philanthropy allowed us to provide service to an additional 15 families waiting for access to our D.A.Y. program this year. With the help of donors, we met the Carswell challenge to raise \$250,000 in new donations, ensuring the success of the full final year match commitment. Our sincerest gratitude to Dr. Allan Carswell and the Carswell Family Foundation for their inspirational \$600,000 gift made over the past three years. And – every dollar of this incredible gift was matched thanks to donors who opened their hearts, and stretched their wallets even further. This generosity has impacted dozens of families over the last three years, for which we are all truly thankful.

While much has been accomplished, even more challenges and achievements await, as fundamental changes in how healthcare in general, and dementia care in particular, will be delivered in the future. These changes will take form through new dementia strategies at the federal and provincial levels, and the passing of the Patients First Act in Ontario. Also, a new governance model for the Alzheimer Society of Ontario and its local Societies, including York Region, will lead to greater efficiency and cohesion.

As these changes take root, everyone at AS York remains passionately committed to improving the quality of life for people living with dementia, their caregivers, and families.

Of course, where there is change, there is also opportunity. We will continue to build upon our reputation as the community leader that people turn to – and trust – throughout their dementia journey. Together, we will work respectfully alongside our clients, funders, philanthropic, and community partners to achieve the worthiest of causes – to improve the quality of life for those living with dementia.

Change the Dialogue

He was... He is...

Who he is now is as important as who he was.

Help change the dialogue for more than 15,000 people living with Alzheimer's in York Region.

Alzheimer Society
YORK REGION

Change the dialogue

In 2016, with the help of an Ontario Trillium Grant and an external communications firm, we embarked on a social media awareness campaign. Our purpose was to help the community learn more about Alzheimer's disease and the services AS York provides, as well as reduce the stigma associated with the disease. We invited people to help change the dialogue by speaking up about dementia.

We consulted family caregivers who gave their thoughtful advice on taking our message to the public.

And, we spoke with people who had no direct link to us. They were amazed to learn how we help families through one-on-one social work

services, support groups, our D.A.Y. programs in Thornhill, Aurora, and Stouffville, community referrals, and educational opportunities.

A participant lamented she wished she had known about our services when previously helping to care for a family member with dementia.

The social media campaign was launched for the month of December with Facebook providing the most interaction. All social media sources resulted in 1.4 million total impressions, with 770 visits to the campaign landing page changethedialogue.ca to learn more. We invite you to visit this page.

Making a Difference

Meet Lily Edmunds. She's a local high school student, athlete, and volunteer for the Walk for Alzheimer's. She was named a recipient of RBC's #Make150Count in celebration of Canada's 150th anniversary. RBC asked young Canadians to make a difference in their communities, giving them \$150 with no strings attached, to do something great.

Lily, who was inspired by her late grandmother's challenges with Alzheimer's disease, chose to purchase stuffed animals as therapy pets, personally presenting them to clients in our D.A.Y. Programs. She knows how much happiness these companion pets will bring to our clients, as it did for her grandmother.

Lily's been actively engaging the community for donations for this cause, hoping her \$150 will grow exponentially. Our congratulations and thanks to Lily for her endless community spirit, and commitment to those with Alzheimer's.

Families Share Their Stories

My wonderful husband, Tony, has Alzheimer's disease. I vowed to look after him myself.

Then my doctor referred me to the Alzheimer Society of York Region where I met a wonderful social worker, Angela. She suggested Tony and I visit the Alzheimer D.A.Y. Program to see what it was all about. I felt guilty and was sure Tony wouldn't want to stay. But, he loved it! Tony was full of life again, making new friends, participating in games and the music program. The staff are incredibly caring and knowledgeable.

I'm in a much better place since Tony's been coming three days a week. I know I'm leaving Tony where he is safe and happy. We're so lucky to have this wonderful place here in our community. I know that donations help to make much of this possible - so I say thank you to everyone who gives. I'm forever grateful.

It took a lot of advocating for Terry before my greatest fears were realized. In April 2011, a diagnosis of early onset Alzheimer's was made, eighteen months after I begged the doctor to figure out what was wrong. My husband was only 54.

You think you have all the time in the world together, and then in the blink of an eye it's gone. What makes it worse, you don't know the challenges that lie ahead.

When meeting with my social worker, I learned about the Alzheimer Society of York Region's D.A.Y. program. Terry began attending in Thornhill several days a week. He enjoyed conversation with the younger businessmen and taking part in activities. In November 2015, he moved to the Aurora location that's closer to our home, attending five or six days a week. This allows me to continue working as a hospital charge nurse. Terry loves all the staff, who are supportive and caring of his changing needs.

I attend an Early Onset Support Group, which has played a key role in our journey. I've built lifelong friendships and found the support I need.

As our daughter wrote in a note to her dad, "Alzheimer's may have stolen from you, but your memories and your journey live on in us. In our actions, in our voices, in our hearts, and in our lives."

Treasurer's Report

Stuart Pasternak
Stuart Pasternak
Board Treasurer

OVERVIEW | The Alzheimer Society of York Region's ("AS York") external independent audit firm, BDO Chartered Accountants, provides an annual audit report to the Audit and Risk Committee ("Committee"). The fiscal 2017 financial results, and the auditor's report, contained no items of concern or substantive qualification. The Committee was pleased with AS York's fiscal performance and solid financial management. As always, the financial focus was on the prudent and effective use of resources entrusted to AS York by our clients, donors, government and funding partners.

AS York ended the year with a surplus of \$134,473. Both revenue and expenses increased over the prior year to \$3,205,643 and \$3,071,170 respectively.

Financial governance is maintained through regular Committee meetings when financial statements are reviewed, issues addressed, and Committee objectives developed to advance our long-term strategy and vision. The Committee is also engaged in the ongoing Alzheimer Society of Ontario governance review process.

REVENUE | AS York revenue was \$3,205,643, a 6.3% increase over the prior year. AS York is dependent on the Government of Ontario, through the Central Local Health Integration Network (CLHIN), to fund programs with 59.2% (2016 - 60.6%) of revenue from this source. Management proactively seeks other revenue sources to reduce dependence on the CLHIN, through donations, grants, professional training, and events, as revenue generated from these alternative sources is critical to growth and sustainability.

Combined funding from the CLHIN, the final instalment of the generous multi-year \$600,000 donation from the Carswell Family Foundation (\$250,000), and higher service fee income were primary reasons for an increase in revenue. As well, results from donations, grants, professional training, and events increased by 7.3% to \$877,804, as compared to \$817,722 last year.

EXPENDITURES | Operating expenditures were \$3,071,170, or 95.8% of total revenue for the current fiscal, compared to \$2,936,432, or 97.4% the year prior. However, this year-over-year increase of \$134,734 was at a lower percentage of revenue. The increase in expenses was attributable to higher Caregiver Support and Education (\$51,699), Fund Development (\$56,242), and General Operations (\$45,277), offset by lower Adult D.A.Y. Program costs (\$18,480).

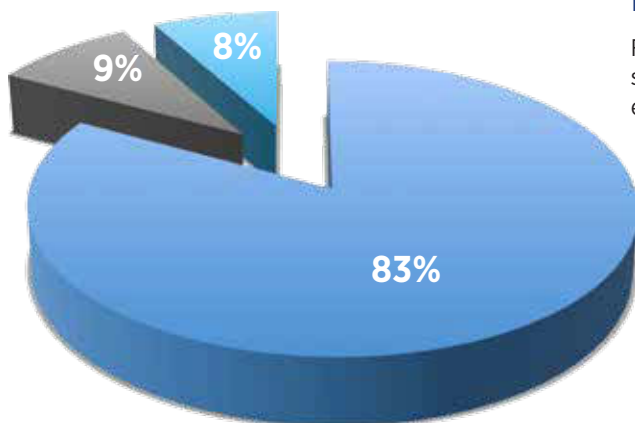

BALANCE SHEET | AS York has a healthy balance sheet and is in a strong financial position. Current assets plus restricted cash and investments exceed current liabilities by a ratio of approximately 2.8:1, compared to 2.5:1 last fiscal year. This well exceeds the 1:1 ratio indicative of organizations with sound liquidity. AS York has \$638,242 in cash and short-term investments. \$401,108 is reserved to support future capital and operating expenses associated with the Multi-Year Capital Asset Plan, and Contingency Plan for Loss of Funding, allowing AS York to operate without going into debt and/or placing the organization in a position of excessive financial risk. AS York cash and short-term investments are held with a major Canadian financial institution.

CONCLUSION | The Committee is optimistic about the future growth of AS York and its ability to expand revenue sources through a strategic focus on donations. The expansion of revenue will enable AS York to service more families and achieve its mission to alleviate the personal and social consequences of Alzheimer's disease and other dementias, and to promote research.

I would like to thank Committee members Shawn Turner, Simon Francis, Janice Clarke and Loren Freid, for their ongoing support and extremely valuable contributions. Due to their efforts, we effectively oversaw the finances, ensuring prudent, effective and efficient use of resources entrusted to AS York.

Return on Investment

Financial support to the Alzheimer Society of York Region results in a substantial return on investment. As the diagram illustrates, 83% of our expenditures are allocated to programs, services and research.

The statement of operations and financial portion presented here have been extracted from our organization's audited financial statements, approved by the membership at our General Meeting on June 14, 2017. Our auditors are BDO Canada LLP in Newmarket, Ontario. The Alzheimer Society of York Region is committed to transparency and accountability to our stakeholders and general public. Our complete audited financial statements are available upon request.

Donor Appreciation Evening, October 2016

Community Engagement

Special thanks to the 750 people who walked or donated last spring making this event a success. Supported by the planning committee, generous sponsors, volunteers and staff, this was the most successful year in AS York's Walk history! Almost \$62,000 was raised at walks at The Briars Resort and at Richmond Green Park.

Funds raised help to provide programs, services, and education to improve the quality for those living with Alzheimer's disease and other dementias.

Coffee Break

Coffee Break® celebrated 21 years of success across Canada, with thirty organizations raising \$25,000 in our community. Thanks to our community partners who participated. Special thanks to our corporate sponsors, Bulk Barn and FreshCo for helping to raise over \$15,000 at their York Region stores.

Breaking Ground in Aurora

In September, donors and community members helped to break ground of our second sensory garden at the Aurora D.A.Y. Centre, building upon the success of the garden at our Thornhill location. The hardscape commenced in the fall, with landscaping, plants, and benches to be completed in the spring.

This project was made possible thanks to donor support from the J.P. Bickell Foundation, Commonwell Mutual Insurance Group, and Dr. Allan Carswell and the Carswell Family Foundation, who matched all donations.

The Sensory Garden will provide much-needed green space, with trees, foliage and raised flower beds in a safe environment. Clients will enjoy a sense of security and comfort, providing them enjoyment and a calming space, thus reducing anxiety.

Donor Appreciation Evening

Our first donor recognition evening was held at our Aurora D.A.Y. Centre in October. It provided a wonderful opportunity to thank our many generous donors and supporters, while hearing heart-felt stories from front-line staff and caregivers about the help we provide to families.

One highlight of the evening was the presentation of a beautiful artwork to Dr. Allan Carswell and the Carswell Family Foundation, for their incredible generosity. Peter Styrmo presented a painting created by his wife Diane, an acclaimed artist for almost 50 years, and former client of AS York.

How You Can Help

By supporting the Alzheimer Society of York Region, you enable us to expand our reach and help even more people touched by dementia. Here's how:

- ✓ **Make a Gift**
Donate by mail, phone or online
- ✓ **Volunteer**
Help with an event, on a committee, or in our programs
- ✓ **Leave Your Legacy**
Continue your tradition of giving with a bequest in your will
- ✓ **Plan your own Event**
Organize a fundraising event to support the Society
- ✓ **Join our Walk for Alzheimer's or Coffee Break events**
- ✓ **Give the Gift of Appreciated Stock**
Possible tax advantages for you
- ✓ **Donate a Gift of Insurance or Property**
